Summary

Computer Science Engineering graduate (2025) with hands-on experience in full-stack software development and strong programming fundamentals in Java, JavaScript, SQL, Object-Oriented Programming, and Data Structures. Experienced in building and debugging web applications using React.js, Node.js, Express.js, MongoDB, and REST APIs. Proficient in Git and GitHub for version control and familiar with AI-assisted development tools. Strong problem-solving ability, quick learning skills, and a keen interest in building scalable software solutions in dynamic engineering environments.

Education

Parvatibai Genba Moze College of Engineering <i>Bachelor of Engineering in Computer Science</i> CGPA: 8.08/10	2021 – 2025
Sir Parashurambhau College, Pune <i>Higher Secondary Certificate (HSC)</i> Percentage: 81.00%	2020 – 2021
Parimal Vidyalyaya, Latur <i>Secondary School Certificate (SSC)</i> Percentage: 80.40%	2018 – 2019

Technical Skills

- **Programming Languages:** Java, JavaScript, SQL
- **Core Computer Science:** Object-Oriented Programming, Data Structures, Algorithms, Problem Solving
- **Frontend Development:** HTML5, CSS3, JavaScript, React.js, Tailwind CSS
- **Backend Development:** Node.js, Express.js, REST APIs, JSON, CRUD Operations
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Software Engineering:** DBMS, MVC Architecture, Authentication, API Integration, Debugging
- **Version Control & Tools:** Git, GitHub, Postman, VS Code
- **AI-Assisted Development:** GitHub Copilot, Antigravity

Projects

StudyNotion – Ed-Tech Platform | MERN

- Developed a full-stack e-learning platform using React.js, Node.js, Express.js, and MongoDB.
- Implemented role-based dashboards, JWT authentication, OTP login, and secure user workflows.
- Developed REST APIs for course management, user progress tracking, and application data handling.
- Integrated Razorpay for payment processing and Cloudinary for media storage.
- Tested APIs using Postman and optimized frontend-backend communication for better application performance.
- **Live Demo:** study-notion-six-sigma.vercel.app

Flat Finder – Rental Platform | MERN

- Built a rental platform using React.js, Node.js, Express.js, and MongoDB with REST API integration.
- Designed database schemas for users, properties, bookings, and application workflows.
- Implemented authentication, role-based dashboards, property listing, and booking functionality.
- Integrated Google Maps API and developed responsive interfaces for property discovery.
- **Live Demo:** flatfinder-eta.vercel.app

Multi-Account Social Automation Platform | Java, Spring Boot, PostgreSQL, Redis

- Built a scalable Java-based social automation platform supporting multi-account management, OAuth authentication, post creation, scheduling, and publishing across multiple social platforms.
- Developed REST APIs and service modules for account management, OAuth callbacks, post publishing, media uploads, scheduled posts, and publishing logs.
- Designed PostgreSQL database models for users, social accounts, posts, targets, publish jobs, scheduled posts, media assets, and audit logs.

Work Experience

Full Stack Developer Intern | Codec Technologies Pvt. Ltd.

Sep 2024 – Jan 2025

- Developed full-stack application features using React.js, Node.js, Express.js, and MongoDB.
- Integrated REST APIs with frontend components and implemented CRUD operations for application modules.
- Implemented JWT-based authentication and role-based access control for secure application workflows.
- Debugged application issues, tested APIs using Postman, and optimized frontend-backend integration.
- Used Git and GitHub for version control, code management, and collaborative development.

Certifications

- **Java Programming Certification** – Great Learning
